Oct. 21-24, 2025 於韓國濟州島 (Jeju) 舉辦

The Asian Civil Engineering Coordinating Council (ACECC) was established on September 27, 1999 in Tokyo, with five civil engineering societies namely ASCE, CICHE, JSCE, KSCE and PICE to promote collaborative work towards sustainable development of infrastructure within the Asian Regions.

The Civil Engineering Conference in the Asian Region (CECAR) is a major activity of ACECC held on a triennial basis. Leaders and decision-makers from academia, industry, and the public sector get together to discuss the issue of infrastructure development in the Asian Region and disseminate developments and potential solutions to the world.

The theme for CECAR10 is Sustainable Management and Resilient Technology (SMaRT) in Civil Engineering. Technical areas covered will include all fields of civil engineering.
